

REHASH OF 27 08 2013

After the meet & greet in the Harewood Tavern carpark, Vasey took control and took \$2 off us, and scribbled our names down on a piece of paper, and guess who wasn't there. Firken gave us some vague information and off we went. We went up and down some streets, through some lanes and across parks, the trail kept us together well, runners sometimes at the front and sometimes at the back. We lost Self Saucing Sausage very early on. We arrived at the first PS at 7.55. guess where,, yes the pub carpark. We got SSS out of the pub and he reckoned he had left the carpark and ran the second part of the run. After some discussion it was put to the vote whether it was worth doing the second part as it has already been done by SSS. A few of us thought that maybe there wasn't a second stage.

Vasey circled us up and got into a fining frenzy, so after many fines and finally,, the RA stepped in and told her we have a fines master waiting ready to go.
